## SUMMARY

---

MCA final-year student with hands-on experience in full stack web development. Proficient in Python (Django), HTML, CSS, and Bootstrap, with a strong foundation in building responsive, user-friendly web applications and robust back-end systems. Eager to apply academic knowledge and practical skills in a dynamic internship or placement role, with a keen interest in web development, software engineering, and SAP consulting.

## PROJECTS

---

- |                                                                                                                                                                                                                                                                                                                                                                                                                                |                                      |
